

## **Description and Operation**

The 2.5L diesel engine fitted in the Scorpio is a proprietary product manufactured by VM Motori of Cento, Italy. The engine fitted up to 97<sup>1</sup>/<sub>4</sub> MY meets 87 US emission levels and the engine fitted from 97<sup>1</sup>/<sub>4</sub> onwards meets 96 EEC emission levels.

Both engines are equipped with an exhaust gas recirculation system and an oxidation catalyst.

Further information, including a full system description is contained within the FDS2000 Vehicle System Test Manual (CG1591).
