

Lock on Go

- Locks all doors at preset speed
- Two Speed Alarms
- Optional Configuration Software for the PC
- Added Security
- Easy to Install

The Lock on Go unit, is specifically designed for the Ford Scorpio 95+, but may be suitable for other vehicles. It provides added security, in that all the doors are locked after a preset speed is reached. This can protect against opportunist crimes, such as theft of handbags, briefcases etc from the passenger or back seat. Also it makes attempts to steal your car more difficult, for carjacking criminals. The unit is straight forward to fit and requires four wires

- Ready built & tested Lock on Go unit £
- Blank double sided, through plated PCB £
- Optional Configuration PC lead/converter £
- Optional Configuration Software on CD Rom £

Compact & Easy to Fit
Optional Settings Adjustable with PC Software

(Available for free download)

Headlight Courtesy Extender

- Provides Illumination
- Added Security in Car Parks etc
- 35 Second Delay
- Selectable & No Extra Switches to Fit
- Easy to Install

Compatible with Alarm & PATS

The Headlight Extender, provides the Ford 95+ Scorpio with added safety and convenience. If desired, the Headlights remain on for 35 Seconds

After turning the ignition off. This provides illumination in dark car parks, or in your drive etc. The system automatically switches off and is deactivated when ignition is turned on

- Ready built & tested Headlight Courtesy Extender £
- Blank PCB £

Fast 4 Wire Installation
